

## Preseason Updates

### Special Points of Interest

- \* Aug 3-13 Studio closed
- \* August 14—Shoe sizing
- \* September 4-5—Dance Intensive
- \* September 9—First day of class

I hope each of our studio families is having a fabulous summer. There are a few items of note that just can't wait until September.

### Attire List

Due to difficulty getting some of our studio bodysuits and shoes, I have set up an eshop via the studio website. The Grade 4 & 5 burgundy leotard can not consistently be found in our local stores. We now only have 3 stores as Classique in Silver Springs and The Masque in the south have both closed. It is also difficult to get tights and shoes before competition season begins. Due to these concerns, you now have the op-

tion to purchase online and have your order shipped to your home. Please see the attached flyer for more information on ordering and to obtain the code for free shipping. The products offered do not cost any more than those you could find in store.

On August 14 from 4:30-6:30 you can stop by the studio and try on Capezio tap shoes, Hanami canvas turning shoes (grade 3 & up) and Hanami split sole ballet slippers (grade 5 & up) if you are interested in purchasing shoes online.

A few changes were made to the attire list for 2019-20. Students in lyrical from grade 3 & up should pur-

chase canvas turning shoes for their competition class. For students that have been using turning shoes this year, when your current shoes wear out, please purchase canvas ones as they last longer than the leather ones.

New Grade 4 and 5 ballet students will need to order their bodysuit online. If you have any questions regarding an order, the online store has amazing customer service and will be able to help you choose the correct sizes and styles. The attire list is also attached for your convenience.

Recital pictures and ballet and acro certificates can also be picked up at this time.

### Registration

Thank you to everyone that has taken the time to register for classes. For those that have not, the studio has a few classes that we do need to calculate class sizes to plan for fall:

**Large Group Acro**—For the current choreography concept we need 16 students in this class. If you plan to register for this class or would like more information, please do contact the office.

**Jazz/Tap Line**—Any stu-

dent in a competitive tap or jazz class with competition experience is welcome to join this extra class. Again, to make this work, we need to have at least 16 dancers. If you are interested in this competition routine, please do email and let us know. A decision on proceeding or cancelling these classes will be made once we have anticipated class registrations.

### Dance Intensive

We will once again be offering Dance Intensive on September 4 & 5. This is

great for competitive dancers that want a head start to the season as well as those wanting to meet their new teachers. The schedule will be sent out once our instructors have returned from their vacations.

### Adult Classes

The following sessional classes are available for Adults for fall:

Adult beginner tap

Adult Intermediate tap

Adult Jazz

You can register online for these 12 week sessions.
